West Michigan Rivers-Fishing Report

October 30th, 2009... **Halloween Edition**

Good steelhead numbers but tough conditions

Pere Marquette Temps - 40's Water Conditions - high and dirty
>>>Steelhead number are solid but high dirty water and lots of leaves are going to make things tough for the next few days. *Kevin Morlock*

Big Manistee Temps - 47 Water Conditions - high
>>>Few spawning salmon and dropping temps are moving the steelhead into slower holding waters. Large streamers swung seems to be the best bet... something that stands-out against the gobs of leaves drifting downstream.

Muskegon Temps - 51 degrees Water Conditions - slightly stained, rising
>>>Some salmon are in the river. Spawning has reached its peak. Try eggs and caddis larva making sure to cover the dark water behind salmon beds searching for a nice Muskegon River trout or steelhead! Some larger trout have been caught on streamers in the deeper runs.
Phil Cusey

Ethan and his first steelhead with Grandpa holding, caught yesterday on the PM River!

Martinez's Halloween
Caveman on a tube
Tube... Eumer, small
Cone... bronze, medium
Tail... barred rabbit strip
Body... Hareline Dubbin,
uv polar chenille, silver
Tinsel... pearl crinkle
Collar... barred rabbit strip
