West Michigan Rivers-Fishing Report

April 11th, 2010

The steelhead are in full swing... and so are the trout!

Pere Marquette Temps - mid 40's Water Conditions - bit high, stained

>>>The PM River is fishing ok. Flocks of people hit the river on Saturday and I think many went away disappointed. With the perfect water temps the trout fishing has been great.

Kevin Morlock

Big Manistee Temps - 44 Water Conditions - average, clearing

>>>The Manistee River has ok steelhead numbers, it will be interesting to see what next week brings. The typical egg and nymph combinations have been the best bet.

Muskegon Temps - 48 Water Conditions - average, stained

>>>The steelhead are doing well on the Muskegon and with the warm water temps so are the trout. Look for the trout behind spawning steelhead or in areas with stonefly activity. *Phil Cusey*

Ten year old Gavin taking the chill off the morning with a warm cinnamon roll.

Chris with a nice PM River Steelhead, Chris did a nice job getting into a tough spot to hook-up with this fish.
