November 21st, 2009

Fish numbers are ok, conditions and weather are perfect.

**Pere Marquette** *Temps - 40's*      *Water Conditions - upper clear, lower perfect*  
>>>Expect to get into steelhead through out the PM River system but no reports of "big days". Streamers have been producing well. Trout have been doing well. *Kevin Morlock*

**Big Manistee** *Temps - 44*      *Water Conditions - average*  
>>>Fair steelhead numbers but the trout fishing has been good. Streamers are the way to go.

**Muskegon** *Temps - 46*      *Water Conditions - clearing*  
>>>Recent high water has brought decent numbers of steelhead in the river. Trout are beginning to put the fall feedbag on! Try nymphing in and down from riffles as well as streamer fishing. *Phil Cusey*
