# West Michigan Rivers-Fishing Report

December 12th, 2009

Winter is here. Jason Demeter Wins The Mystery Fish Contest!

## **Pere Marquette** Temps - 30's

*Water Conditions - icy*

>>>The PM River received a fresh batch of steelhead before winter hit. The boat landings and river will be tough until the weather stabilizes. Then I would expect good winter steel-heading. *Kevin Morlock*

## **Big Manistee** Temps - 37

*Water Conditions - a little above average*

>>>The weather will have to stabilize. Steelhead fishing before the snow was fair but the trout fishing below tippy dam has been great.

## **Muskegon** Temps - 38

*Water Conditions - slight stain, average level*

>>>Winter is upon west Michigan. Nymphing for trout with scuds, pheasant tails and hare's ear nymphs will produce the best results. Steelhead will begin to move out of the runs into deep holding water. *Phil Cusey*

Top Left: A pre-storm steelhead from last week.

Top Right: The wrong look for a flats skiff.

Bottom: Jason Demeter wins the *Mystery Fish Contest* and free guided trip. See the Indigo site for more details.
